

	Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday					
7:30 AM		Breakfast	Breakfast	Breakfast	Breakfast	Breakfast	Breakfast					
8:30 AM			Mire restoration sites	Chair - tbc	Mineral sites and restoration techniques. Machinery demo	Chair - tbc						
8:45 AM								I Diack - mires	I Alonso - drone use			
9:00 AM								M Simmonds - palaeo-ecology	W Oxford - Open Access & RS			
9:15 AM								JAH Smits - Golf courses	RA Diaz-Varela - R Sensing			
9:30 AM	G d Blust - Opening address & welcome							G Sterckx - Public Service	J Schellenberg - weather impact			
9:45 AM	J White - Welcome to Dorset							C Dictus - Crowded Flanders	CD Damgaard - Adaptive mngmt			
10:00 AM	Chair - tbc	K Ibe - Provenance						C Panter - Visitor patterns	A Diaz - Monitoring large herbivores			
10:15 AM		K Nagels - Grassland restor.						J Fagúndez - Wild ponies				
10:30 AM		P Sewerniak - Inland dunes						S Lake - Working X boundaries				
10:45 AM		H Siepel - Sod cutting						Q&A				
11:00 AM		E Marcos - Mngt impact on soils	New Forest Field Excursion	Poole Harbour boat trip	Purbeck Field Excursion	Q&A	Tour of East Devon Heaths: restoration areas (minerals and forestry), grazing, recreation management. Buffet lunch and tea en route.					
11:15 AM		H Lee - Soil carbon						Visit to Pony Sales Yard, talk on commoning over lunch	Guided trip to see Dorset Heaths in landscape, links to other coastal and wetland habitats, Osprey reintroduction	Lunch stop on chalk ridge & overview. MOD	Next Workshop?	
11:30 AM		L Calvo - Wildfires						Dry heathland areas, wild fire recovery and controlled burn sites				+ Lunch
11:45 AM		AC Elliot - Fire prevention							Urban Heath site visit	Canford Heath, urban heaths and combatting urban pressure	G de Blust - Conference close	
12:00 PM		Q&A						Coach to Devon & settling in at accommodation				
12:15 PM		Lunch							IK Schmidt - Natural dynamics			
12:30 PM	NE Scott - Irish heath spp											
12:45 PM									KA Haysom - Reptiles			
1:00 PM	JJ Vogels - Inverts & mng											
1:30 PM									CJ Kelly - Lady Spider			
1:45 PM	RR Hansen - Ants											
2:00 PM						JO Offenberg - Anthills						
2:15 PM	MTS Strandberg - Heathland blues											
2:30 PM						Q&A						
2:45 PM	J Kowal - Vegetation ecology											
3:00 PM		L Calvo										
3:15 PM	L Death - BftB											
3:30 PM		RM Buttenschøn - Deer grazing										
3:45 PM	N Hutchinson - Plantlife											
4:00 PM		K Winch - Hoverflies										
4:15 PM	J Jasińska - Dune heaths											
4:30 PM		Arrival and check-in				Free time	Dinner at conference venue	Dinner at conference venue	tbc	Pizza at Otterton Mill	Evening ceildh and local event	
4:45 PM	Introduction to the New Forest - Julie Melin-Stubbs											
5:00 PM												
5:15 PM	Dinner at conference venue											
5:30 PM												Jap Smits - The hidden world of the Strabrechtse Heide
5:45 PM	Nightjar walk/talk (tbc)											
6:00 PM												Conference dinner
6:15 PM	Dinner at conference venue											
6:30 PM												Dinner at conference venue
6:45 PM	Evening walk from conference venue, to DWT Higher Hyde reserve (Leo Henley-Lock)											
7:00 PM		Dinner at conference venue										
7:15 PM	Dinner at conference venue											
7:30 PM		Dinner at conference venue										
7:45 PM	Dinner at conference venue											
8:00 PM		Dinner at conference venue										
8:15 PM	Dinner at conference venue											
8:30 PM		Dinner at conference venue										
8:45 PM	Dinner at conference venue											
9:00 PM		Dinner at conference venue										
9:30 PM	Dinner at conference venue											
10:00 PM		Dinner at conference venue										

KEY

Opening and concluding sessions
Field excursions
Scientific Programme
Meals and informal time
Optional extension

Presentations (heathland ecology, species ecology, management, restoration)

Presentations (urban development, people and recreation management, partnership working)

Presentations (New technologies, modelling...)

Invited talks

Posters

Presentations (heathland ecology, species ecology, management, restoration)	Presentations (urban development, people and recreation management, partnership working)	Presentations (New technologies, modelling...)	Posters
---	--	--	---------

Heathlands under Global Change – The Importance of Provenance and Interaction Effects			K. Ibe
restoration of Nardus grasslands on the military area Kamp Beverlo			K Nagels
Effect of topography on groundcover species composition on inland dunes: a comparative study of heathlands and pine mono-stands from N Poland			P. Sewerniak
Effects of sod-cutting on the micro-arthropod community of heathlands			H. Siepel
Resilience of soil parameters after long-term perturbations in most southern Heathlands in Europe.			E Marcos
Soil carbon storage of coastal heathlands in Norway under different management practices			H Lee
From wildfires to prescribed fires: resilience of heathlands under different fire regime parameters.			L. Calvo
Prevention or Mitigation? Vegetation fires on heathland			AC Elliot
Natural dynamics and heathland management			IK Schmidt
Are the rare heathers of the west of Ireland and south-west Britain really native?			N E Scott
Factoring reptiles and amphibians into heathland management			K.A. Haysom
Arthropod responses to choppering and high-intensity grazing as alternatives to sod-cutting in wet heath: medium term effects			J.J. Vogels
Conservation of the Ladybird spider on the Dorset Heaths			C.J. Kelly
Don't take ants for granted: Traditional management have negative impacts on ant communities			RR Hansen
Anthills: hot, dry and alkaline islands on the heath			JO Offenberg
Heathland blues - Potential risk for heathland butterflies from traditional management			MTS Strandberg
Heathland wetlands - valley mires in the UK			I A Diack
Environmental Change and Human Activities during the Late Glacial and Early Holocene in Southeast England			M Simmonds
Heather for golf courses - Design and recovery of golf courses using heath			J.A.H. Smits
Heathland restoration in Flanders: experiences of a public service in nature conservation			G. Sterckx
Crowded Flanders, too heated for heathland...?			C C F Dictus
Visitor patterns on southern heathlands in the UK: overview of recent findings and thoughts for future directions			C Panter
Wild ponies in mountain heathlands landscapes in the Xistral Mountains, NW Spain.			J Fagúndez
Working across site boundaries to save vulnerable heathland species in Dorset's Heathland Heart			S Lake
Exploring wide-spectrum drone use on heathland ecosystems			I Alonso
Open Source Data and Remote Sensing to Support Heather Moorland Management			W Oxford
A remote sensing multiscale characterization of wet heathland and bog mosaics in Serra do Xistral (NW Spain)			R.A. Díaz-Varela
Does <i>Calluna vulgaris</i> vitality suffer from subcontinental weather events			J. Schellenberg
Using empirical models for setting up local adaptive management plans: Wet heathlands			CD Damgaard
Monitoring landscape-scale grazing by large mammals as a tool for enhancing heathland biodiversity			A Diaz
Above and Below: Vegetation Ecology on Heathlands			J Kowal
Back from the Brink – Dorset's Heathland Heart and the Ladybird Spider projects			L. Death
Deer grazing at heathlands			RMB Buttenschøn
Plantlife heathland restoration talk - title TBC			N Hutchinson
The value of different habitat types within a heathland landscape mosaic at different spatial scales for hoverflies (Diptera, Syrphidae).			K Winch
Effect of slope aspect on characteristics of litterfall in dune heathlands of the Toruń Basin (N Poland)			J. Jasińska
